Prohibited commercial activities in Norway

With this document The Football Association of Norway inform foreign teams playing matches in Norway that commercial activities related to alcohol, tobacco and betting companies is prohibited in Norway.

Thus, according to the UEFA Equipment regulations edition 2022, article 27.02: *Any bans or restrictions imposed by the domestic legislation of the country in which a UEFA competition match is taking place also apply*, no teams playing in Norway may advertise such products in any way while they play in Norway. The ban is valid for both on and off pitch equipment.

Tobacco:

All forms of advertising for tobacco products are prohibited.

No tobacco products may be included in the advertising of any other goods or services.

A brand that is primarily known as a tobacco brand cannot be used in advertising for other goods or services.

Alcohol:

Advertising of alcoholic beverages is prohibited. The prohibition also applies to advertising for other goods with the same brand or characteristics as any alcoholic beverages. Beverages containing alcohol must neither be included in the advertisement of other goods or services.

Betting:

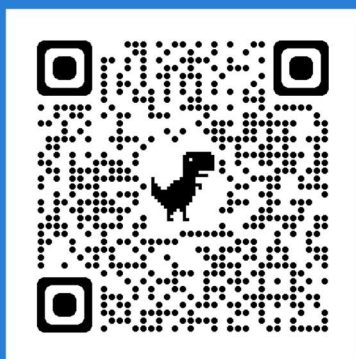

It is not allowed to promote or announce betting services in connection with sports- or other competitions in Norway. The only exception is betting provided by the state-owned company "Norsk Tipping".

The regulations also affect advertising of messages in a way that makes it possible for the public to understand that it is a betting company that is promoting the message, no matter what the message is. If a not insignificant part of the public perceives that the sender of a message or an advertisement is an illegal betting company, the message itself is illegal.

Should you have any questions related to this, or other commercial activities, please do not hesitate to consult us.

Kind regards,

Rune Nordhaug
Head of Club Support
